

Router Joinery Jigs

Leigh D1258 and D1258R User Guides

**** Important Note****

User Guides for the Leigh D1258 and D1258R are no longer in print. The User Guide for the D4 dovetail jig is directly applicable to the D1258 series jigs. Although some of the jig parts differ slightly in appearance, all procedures for Through, Half-blind, Sliding dovetails and more, remain the same.

The current D4R User Guide may be used, but the **D4** User Guide is more applicable and it can be viewed and downloaded free from this web site, and printed if desired. Hard copies are no longer available.

If you wish to purchase the D4R manual, you may order online at <http://www.leighjigs.com/manuals.php>, or on our toll free line – 1 800 663-8932. Please use part #25.

Jig upgrades are available to convert your older jig to D4 Specifications. Upgrade kits may be seen at the following link; <http://www.leighjigs.com/upgrades.php>.

All technical bulletins for 24" D Series jigs may be used with the D1258 and you may access these at the following link; <http://www.leighjigs.com/support.php#r12>.

Thank you.
